Summary

Full Stack Engineer passionate about building robust and scalable solutions, skilled in a wide range of languages and technologies, and with experience in working with international and remote teams, continuously learning and evolving.

Experience

MyCareforce

Remote

Senior Software Engineer

Feb 2025 - Aug 2026

- Restructuring legacy projects in frontend, backend and mobile
- Process analysis with Betterstack and Sentry
- Implemented new standard for projects
- Key technologies: NestJS, Next.js, Chakra UI, React Native, Playwright and Claude Code

Plathanus

Remote

Full Stack Engineer

May 2022 - May 2024

- Contributed to both national and international projects, collaborating with multicultural teams
- Contributed to the development and optimization of a full-stack application at Tabas
- Implemented performance improvements using caching strategies and lazy loading techniques across both frontend (Next.js) and backend (Ruby on Rails), enhancing overall user experience, reducing page load times, and lowering infrastructure costs
- Joined the BlueBrain team at Blueground to revamp an internal tool from Java Applet to React, enhancing accessibility, performance, and system resilience
- Led Front-end development for an e-commerce platform using Next.js, Tailwind, NextAuth, and payment integration, streamlining customer onboarding and purchases
- Key technologies: Ruby on Rails, React, Next.js, TypeScript, Jest, RSpec, Material UI, TailwindCSS, GraphQL, Jotai, React Query, React Hook Form, Datadog, Sentry, Storybook

Freelancer

Remote

Full Stack Developer

2020 - 2022

- Provided consultancy and developed solutions for small businesses using HTML, CSS, JavaScript, jQuery, and Bootstrap
- Improved clients' online presence, delivering user-friendly interfaces and optimized web performance

COPPE / UFRJ

Onsite

Web Developer

2016 - 2019

- Built CRUD pages and internal tools using JavaScript, C#, ASP.NET, Bootstrap, and Microsoft SQL
- Gained hands-on experience in full-stack development and end-user interactions within a leading academic incubator

Education

Microverse

Remote

Full Stack Web Development Program

Aug 2021 - March 2022

- International bootcamp conducted entirely in English, collaborating with developers worldwide
- Focused on industry-standard tools and best practices, working extensively with JavaScript, React, Redux, and Ruby on Rails, while honing both technical and soft skills

UFRJ

Computer Science

Onsite

2014 - 2021

- Studied at one of the most renowned universities in Latin America
- Gained experience with multiple languages (C, C++, Python, R, MATLAB), cybersecurity (delivered lectures on steganography), and algorithm competitions
- Combined strong academic fundamentals with hands-on project development

Carlos Veiga

Full Stack Developer

I had the opportunity to work alongside Luís at Tabas, and I was always impressed by his commitment to quality. Luís is the kind of person who doesn't just aim to get the job done but insists on getting it done right. He pays close attention to detail and always strive to deliver the best possible product. His dedication to excellence is something you don't come across often, and it was a pleasure to work with him.
